

Mind The Gaps!
Without an Implementing Agreement, the high seas is like a jigsaw puzzle with half the pieces missing.

- 1 WHOOPS! : Mandate to establish or enforce reserves & MPAs**
- 2 YIKES! : Mechanism for EIAs or SEAs**
- 3 HOULÀ! : Modern environmental management principles**
- 4 おっと! : Access to and benefit sharing of MGR**
- 5 عجباً! : Global monitoring, control, surveillance of human activities**
- 6 ¡OSTRAS! : Adequate geographic coverage of competent governance organizations**
- 7 EPA! : Coordination & cooperation among existing governance organizations**
- 8 HOPPLA! : Regime for flag state control of vessels**

It's time for a wave of change to protect the high seas and comply with the Rio+20 commitment to achieve an Implementing Agreement.

Fill the gaps!
